#### GET TO KNOW US A LITTLE BETTER

When Elam Esh began building furniture in 1990 for a neighbor's woodworking shop, he studied furniture journals and built his own designs in his spare time. Soon, demand for his design led to a start-up business in a barn on his father's farm. At the suggestion of a friend, Elam found that his interest in balance and perception was a good match for the clean lines of Mission and Shaker style furniture. Over twenty-five years later, the Christian morals and hard work ethic of growing up on the farm continue to be the guiding principles behind the Country Classic Collection, delivering strong value and honesty in both our designs and relations. Today, the Country Classic Collection continues to grow with a beautiful selection of Mission, Shaker, Contemporary, and Modern styles, Amish handcrafted in the heart of Pennsylvania Dutch country.

## WE STAND BEHIND WHAT WE BUILD

#### Our Promise To You

- » We promise the handcrafted furniture you purchase is free from defects in material and workmanship for the life of the product.
- » We promise that, if the furniture should fail as a result of defective workmanship, we will repair it, or replace it, with the same or similar piece of furniture.

#### What We Hope You Never Have To Do

» But in the event you need to make a claim, we're always here to help. Simply contact the store that you bought your furniture from, and we will make things right.

#### BUILT TO SATISFY

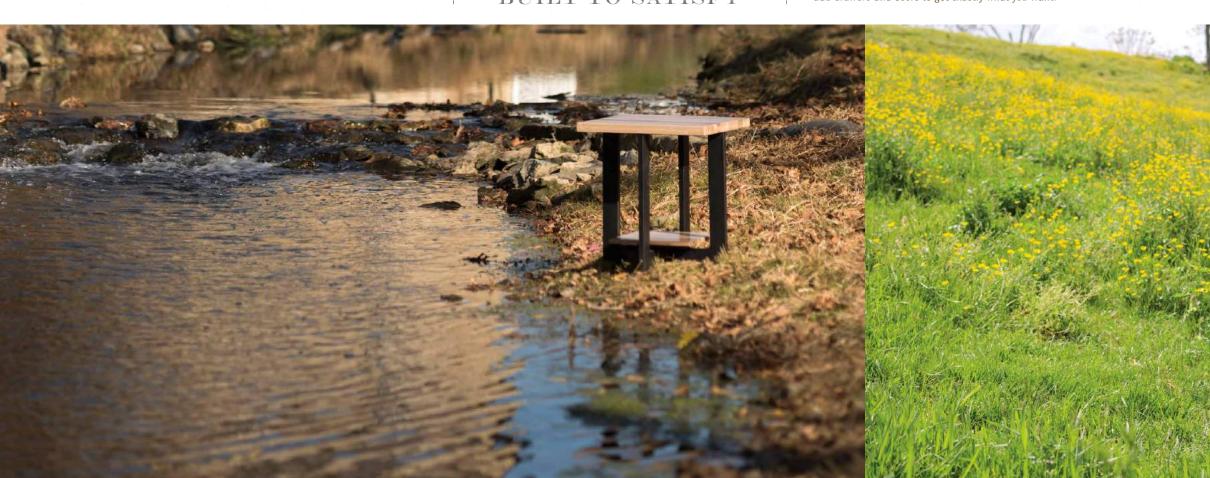

## CUSTOM, LEAN AND AGILE

#### What we do and why we do it

Yes, we build furniture, but the reason we are here is to serve you. We are primarily in the business of satisfying customers. We do that by embracing lean techniques — doing more with less. We are constantly working on eliminating waste and making the best use of the precious recourses God has provided us. By doing this with both our time and materials, we can achieve our goal of exceeding your expectations by continuously delivering more for less!

#### Go ahead - Customize it!

Because of these innovations in lean manufacturing, each piece is built to order for you with your choice of color, hardware and wood species, as well as any size changes you may need. We can change sizes on any piece to make it longer, higher or wider. You can even add drawers and doors to get exactly what you want.

## ABSOLUTELY Mowhere

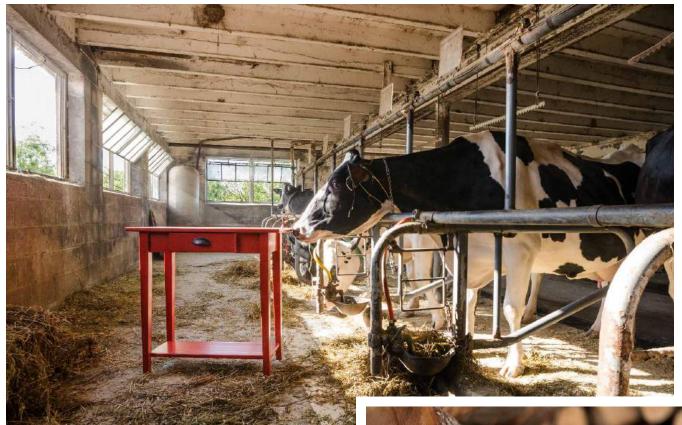

## LANCASTER COUNTY, PA IS MORE THAN JUST A PLACE...

Our heritage and culture is deeply rooted in this fertile land of the free. The strong work ethic and Christian morals of our forefathers demonstrated in their integrity and meticulous stewardship of the land are now reflected in the work of our Craftsmen. Our strong belief in "honor others above thyself" means we are here to assist you with personal and helpful service. It also means we believe in building our furnishings with exceptional quality and lifelong value. It means crafting furnishings that you can pass on to your children's children just like our heritage was passed down to us.

THE MOST IMPORTANT PART OF OUR PRODUCTS:

#### THE PEOPLE THEY ARE DESIGNED FOR.

In Lancaster's fertile lands this passion for delivering excellent value was planted in the heart of a young farm boy. An equally fertile culture based on enduring principles and serving with integrity, brought to fruition the life behind the Country Classic Collection.

66

A COMPANY IS A CUSTOMER SATISFYING PROCESS, NOT A GOODS PRODUCING PROCESS.

This seed so carefully nurtured in obscurity, sprang to life in 1990. That's when the young boy, Elam Esh became intrigued with the art of woodcraft in a neighbor's woodworking shop. In his scant spare time, after assisting his father with the seemingly endless hard work on the farm, he started studying furniture journals. Before long he was providing his craftsmanship full time for a few valued friends, in a barn on his father's farm. Listening to his first client and longtime friend Jim Sparrow's suggestions caused demand for his skill to grow like "corn in July". The tables turned and soon Dad and then other family members were assisting with the seemingly endless requests for his well-crafted products.

This passion for seeking to understand people's true needs or "quarter inch hole", allowed his rapidly expanding network to share how trade winds were bringing significant changes to the market place. Needs were shifting from lots of product in limited options to Craftsmen that could continuously "deliver outstanding value relevant to their current needs". This meant a dramatic pivot from large inventories of product in limited species and color (China's specialty) to providing species, color, hardware and even dimensional customization on a scale never seen before.

66

#### PEOPLE DON'T WANT TO BUY A QUARTER INCH DRILL BIT, WHAT THEY REALLY WANT IS A QUARTER INCH HOLE.

THEODORE LEVITT

2011 saw these shifts in perspective "bring the seed to fruition" so to speak. After months of disciplined steps leading up to the birth of a better way to serve, product began being strictly built to order. Every piece is now crafted individually with choice of species, color and decorative hardware along with various other options. And finally, guided by the needs of his clients came the best part of all.... the possibility for you to make dimensional customizations on every item in the collection!

## THE DIFFERENCE \*\*MERICAN Made\*\*

#### COUNTRY CLASSIC COLLECTION

#### 1. » SUPERIOR FINISH

Durable catalyzed conversion varnish that is extremely resistant to liquids and most household chemicals and withstands years of wear. So durable it gets used on flooring!

#### 2. » SOLID HARDWOOD

Top is made of  $\frac{3}{4}$ " solid American hardwood.

#### 3. » STURDY HARDWOOD LEGS

Strong, sturdy legs are cut out of one piece of solid American hardwood.

#### 4. » SOLID FRONTS

Drawer fronts made of substantial ¾" solid American hardwood.

#### 5. » STURDY DOVETAILED BOX

Drawer box made of  $\frac{1}{2}$  solid wood and constructed with beautiful and strong dovetail joints. They are sealed and finished with the same high quality varnish as the top and rest of unit.

#### 6. » METAL FULL EXTENSION

Metal heavy duty ball-bearing slides that allows for Full Extension. Drawer opens and closes smoothly, is sturdy and long-lasting.

#### 7. » STRONG SIDES

Sides are made of the same ¾" solid American hardwood that the top is made of. You or your kids will not break these sides!

#### 8. » SOUND, REINFORCED BOTTOM

Substantial  $\frac{1}{2}$ " bottom pocket screwed with  $\frac{1}{4}$ " screws. This reinforces the stability and solidness of the piece.

## THE DIFFERENCE Imported

#### **IMPORTED**

#### 1. » INFERIOR FINISH

Susceptible to damage from exposure to liquids, hot products and household chemicals.

#### 2. » WEAK PARTICLE BOARD TOP

Top is made of weak ½" MDF particle board.

#### 3. » INSUBSTANTIAL LEGS

Insubstantial legs with multiple pieces of soft wood glued together to give a false appearance of solid legs.

#### 4. » THIN PARTICLE BOARD

Drawer fronts made of thin  $\frac{1}{2}$  MDF plywood.

#### 5. » CHEAP DRAWER BOX

Drawer box made of cheap particle board with a fake laminated wood pattern on it to give a false appearance of real wood.

#### 6. » FLIMSY, PLASTIC 3/4" SLIDES

Plastic clip drawer slide that is loose and flimsy and only allows for 3/4" extension. Drawer opens irregularly, tends to wiggle side to side and up and down, has very little support and will tear out rather easily with use.

#### 7. » FRAGILE PLYWOOD SIDES

Sides are made of skimpy  $\frac{1}{4}$ " plywood that is easily cracked or broken.

#### 8. » WEAK BOTTOM

Fragile ¼" particle board bottom fastened with staples. This thin bottom makes the entire piece less stable and allows entire unit to twist and torque.

### PRODUCT Warranty

#### **OUR PROMISE TO YOU**

- » We promise the handcrafted furniture you have purchased today is free from defects in material and workmanship for the life of the product.
- » We promise that, if the furniture should fail as a result of defective workmanship, we will repair it, or replace it, with the same or similar piece of furniture.

#### WHAT WE ASK IN RETURN

» We ask that you use the furniture for the purpose for which the piece was designed.

#### **COMMON SENSE WE CAN AGREE ON**

» Normal wear and tear, seasonal splits, or damage related to alteration, accident, misuse, improper care, or negligence are not within reason, and should not, and do not apply to this guarantee.

#### WHAT WE HOPE YOU ENJOY

» A lifetime of use, beauty, and peace of mind knowing the craftsmen you purchased your furniture from stand behind the integrity of their work.

#### WHAT WE HOPE YOU NEVER HAVE TO DO

» But in the event you need to make a claim, we're always here to help. Simply contact the store that you bought your furniture from and we will make things right. If it is necessary to return the product to our workshop, the purchaser is responsible for all packing and shipping costs. Thank you for putting your trust in our dedicated craftsmen!

#### ENVIRONMENTAL Control

### FURNITURE Cleaning

Our high-quality home furnishings are crafted with genuine, solid wood which is a natural fiber. It will take on and release moisture as Relative humidity (RH) changes with the seasons. Avoiding extreme RH (below 30% or above 65%) is beneficial for maintaining the great function and beauty for generations;

- Maintain relative humidity at \*35-45%
   Note: Low RH, i.e. 30% or less is usually more of a concern than higher RH.
- » Avoid placing your furniture in direct sunlight or near vents and heat sources such as radiators or stoves.
- » Avoid storing in uncontrolled environments such as; garages, basements and attics
- \* There are a few things that can be done to maintain RH. The best of course being to run a humidifier in the winter and a debumidifier in the summer.

We recommend using a soft, damp cloth wiping with the grain. This is all that is needed to keep your furnishings looking great!

- » Avoid dusting with a dry cloth as this may cause small scuffs in your premium finish. If you desire to use a cleaner or furniture polish, avoid using ones that contain ammonia or silicone.
- » Clean up spills using warm water and a mild soap if necessary. While our finish is EXTREMELY chemical & water resistant standing liquids and solvents can cause damage with time.
- » Although not necessary, waxing regularly with a certified, furniture wax may further enhance the life and luster of your hardwood furniture.

#### RED OAK, RUSTIC OAK, MAPLE, WORMY MAPLE, HICKORY, RUSTIC HICKORY, CHERRY or RUSTIC CHERRY.

First decide which hardwood you are most interested in. Each has its own distinctive characteristics. Each piece gets built with many individual boards and you may notice some natural variation in color. Lighter boards come from closer to the bark of the tree and vice versa for darker ones. This is a hallmark of genuine hardwood furniture and a stamp of authenticity! No two boards are alike and every piece we build is a unique work of Nature.

» H: HICKORY

If you are looking for strength, hardness, and durability; Hickory is the most viable wood in North America. The grain is normally straight, but can sometimes be irregular or wavy. Hickory has a coarse texture, with a great deal of color variation between reddish brown, lighter brown, and white. Color variation may have a striped appearance. If your design tastes are for natural wood tones this is one that makes quite an impression.

All the strength and durability you would expect from grade Hickory but with the added beauty of knots and pits. Large knots and pits get filled with black epoxy while smaller ones are left open to farther accent the true character of this arresting hardwood. Tell a story — make a statement. Revel in natures handiwork.

> 0: RED OAK

A beautiful hardwood chosen 50% of the time by Americans for their home furnishings. With three dimensional warmth, relatively uniform color and great durability this species is a popular choice for a reason. It has long been an American staple being the most widely used and purposeful wood even back in the colonial days.

Most Popular Species

( » ) RSO: RUSTIC OAK

Our popular Red Oak species but with the rustic charm of nature's knots & pits. Like our other Rustic species the open knots get filled on tops and shelves with black epoxy that highlight the natural beauty of this popular hardwood.

» C: CHERRY

Found all across the Northeastern shore especially in the Appalachian areas. The finest growth occurs right here in our home state of PA and in West Virginia. The lighter reddish-brown tones create a warm, luxurious look that has made it a favorite for state rooms and mansions which is why this species has become synonymous with wealth and quality. It includes small pitch pockets of mineral and is susceptible to UV and will always darken with exposure to light.

» RC: RUSTIC CHERRY

The same wood as Cherry but with the natural beauty of the "heart wood" (from the center of the tree). This arresting choice contains more of the "sap wood" and "pitting" than standard cherry as well as knots and natural cracks and splits. The character forms a unique and rustic appearance with and unexpected flare that makes a striking statement.

» M: MAPLE (UNSELECTED)

Grown and sustainably harvested from the Great Lakes to the Appalachian mountains. Maple has a durable, tight grain structure. Its tones are more yellow and creamy than cherry. However, it is growing in popularity and has surpassed cherry in preference and is more affordably priced. The luster and changing beauty it creates as light infuses it from different angles plus the natural coloration makes Maple one of the most attractive American hardwood choices available. We use mostly "heart wood" thus the color tones vary from light to beige to dark brown.

Wormy Maple is regular Maple's assertive sibling. It is graded from standard Maple because of the "sap streaks" that naturally occur in this species. It is also separated because of it's "worm holes". Even though it is called wormy the darker streaks are not caused by a worm. They are actually caused by the ambrosia beetle. They leave larvae behind which bore a shallow channel and deposit a fungus that causes the discoloration. These areas are structurally sound. The dark streaks combined with the "worm holes" give it a charming and naturally rustic appeal. Especially when finished in Natural or lighter finishes.

# Amish Made CROSSWAY

## OCCASIONAL

» COLLECTION

### IMPORTED FROM ABSOLUTELY NOWHERE

Crossway speaks of new roads.... take the journey, embrace the tastefully modern appeal of this collection. Soft, eased edges and rounded corners make this transition a delight. The appeal is completed with metal rods that beautifully fulfill the crossing from transitional to modern taste while remaining open and inviting.

# Amish Made FARMSTEAD

## OCCASIONAL

» COLLECTION

### IMPORTED FROM ABSOLUTELY NOWHERE

"A journey of a thousand miles begins with a single step". That step was taken over a quarter century ago with a young boy dreaming of creating value through solid, enduring craftsmanship. This striking collection is designed to commemorate the old Farmstead where the journey began. The attractive braces on the doors and the paneled sides reflect the styling of the old dairy barn where the hard work and integrity behind the vision were fostered.
